Combat

Encl: (1) Regulations Governing Training and Evaluation
With the M16A2 Service Rifle
(2) Regulations Governing Training and Evaluation
With the M9 Service Pistol
(3) Rifle Security Detail Guidance and Procedures

1. Purpose. To publish instructions and regulations governing the
conduct of marksmanship training and the use of the Pistol Range
facility located aboard Marine Corps Air Station (MCAS) Miramar.

2. Information

a. Reference (a) directs that all applicable Marines will
undergo marksmanship training with individual small arms each
fiscal year. Marines who fail to requalify during sustainment
level training will be returned to their unit and must receive
remedial training on the Indoor Simulated Marksmanship Trainer

StaO 3574.1
3 MAY 2000

(ISMT) prior to attending the sustainment level course for the second attempt, to attain the desired minimum performance objective, a marksmanship classification.

b. Station Bulletins are issued annually to promulgate the schedule for requalification training. Personnel required to qualify with either of the service weapons will be directed where to report until such time as permanent facilities are available at MCAS Miramar.

c. Annual marksmanship training will take precedence over all normal duties while shooters are scheduled for marksmanship training. Units are responsible for conducting their own preparatory training. Personnel absent from scheduled training or firing periods will be dropped from the range detail.

d. Reference (b) delineates policy regarding the report of malfunctions, authorized allowances, and procurement and issue of ammunition for marksmanship training with individual small arms. Reference (c) pertains to safety regulations governing the conduct of firing at the ranges, specifically hearing conservation. Reference (d) pertains to the use of "deadly force". References (e), (f), and (g) provide in depth information that every shooter should be aware of. References (h) and (i) detail administrative reporting procedures pertaining to marksmanship. Reference (j) details safety procedures used aboard marksmanship facilities.

e. Enclosure (1) outlines the procedures for qualifying with the M16A2 Service Rifle. Enclosure (2) outlines the procedures for qualifying with the M9 Service Pistol. Enclosure (3) gives guidance and procedures for the prevention of theft of weapons while enroute to the range.

3. Action

a. The MCAS Miramar G-3 Training and 3d Marine Air Wing (MAW) AC/S G-3 Training are to assign units the responsibility for providing Range Safety Officers (RSOs), Security Staff Noncommissioned Officers (SNCOs) for each bus, non-firing SNCOs of firing details, verifying SNCOs and coaches in accordance with the annual marksmanship bulletin StaBul 3574.

b. Each firing unit will ensure proper preparatory marksmanship training is conducted prior to actual firing at the rifle range as outlined in paragraph 1b of reference (a).

3 MAY 2000

c. Commanding officers will be responsible for the following:

(1) Providing, on a quota basis, Range Safety Officers, Security SNCOs, non-firing SNCOICs of firing details, verifying personnel, and unit coaches.

(2) Ensuring orders for shooters and supervisory personnel are approved 3 days prior to preparatory training.

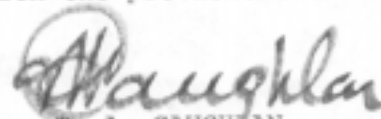

d. The MCAS Miramar Transportation Officer will provide transportation for all firing details.

e. The MCAS Miramar Food Service Officer will provide messing for range personnel.

f. The marksmanship year for the Marine Corps is the fiscal year (1 Oct-30 Sep).

4. Ammunition Requirements. Authorized ammunition allocations for training are contained in references (b), (e), and MCBul 8011.

5. Concurrence. The Commanding General, 3d Marine Aircraft Wing, and the Commanding Officers of Marine Air Group 46 and Intermediate Maintenance Activity concur with the provisions of this order.

T. A. CAUGHLAN
Chief of Staff

Distribution: A

Copy to: MCAS Camp Pendleton

3 MAY 2000

REGULATIONS GOVERNING TRAINING AND EVALUATION
WITH THE M16A2 SERVICE RIFLE

1. Annual Training and Evaluation Requirements Sustainment Level. Active duty Marines are required to complete the Sustainment Level Rifle (SLR) Program annually, and Selected Marine Corps Reserve (SMCR) must complete the SLR Program every other year, commencing with the first year after completion of the ELR Program. Additional marksmanship training may be conducted at the commander's discretion. Exemptions to annual qualification are outlined in paragraph 2 of this Enclosure. The SLR Program includes completion of Preparatory Training (Phase I training), KD Firing (Phase II training), and Field Firing (Phase III training).

a. Unit Responsibility. Unit commanders are responsible for preparing their Marines for annual sustainment training. The training of knowledge-based lecture materials and practical applications in support of SLR is the responsibility of the unit. In addition to knowledge-based lectures, this training should include a mix of dry fire, simulation, and live fire training. Ranges may conduct any or all of this training based on that unit providing required support personnel to adequately augment the Range Staff.

(1) Training at the unit includes dry and live fire evaluation of the following Individual Training Standards (ITS).

Phase I

PVTX.11.1 Perform weapons handling with the M16A2 service rifle (dry fire)

PVTX.11.2 Perform preventive maintenance on the M16A2 service rifle

PVTX.11.3 Fire the M16A2 service rifle at the sustained rate (live fire or simulation)*

Phase II

PVTX.11.7 Engage targets during darkness with the M16A2 service rifle (live fire)*

PVTX.11.11 Engage targets at unknown distances with the M16A2 service rifle (live fire)*

ENCLOSURE (1)

StaO 3574.1

3 MAY 2000

*NOTE: Units may request range support for conducting live fire training for ITS PVTX.11.3, PVTX.11.7, and PVTX.11.11.

(2) The unit must have trained the following SLR lesson plans, prior to Marines going to the range for live fire sustainment evaluation; SLR lessons plans SLR.00 - SLR.15 in support of Phase I Preparatory Training; and lesson plans SLR.19 - SLR.23, SLR.25 - SLR.28 and SLR.30 in support of Phase III Field Firing.

(3) SLR lesson plans SLR.24, SLR.24A, SLR.29, and SLR.29A are the responsibility of the unit, however, these lesson plans are not required to be trained prior to going to the range for live fire sustainment evaluation. These lessons are part of the SLR Program and result in live fire evaluation of ITSs PVTX.11.7 and PVTX.11.11 that are reported to Marine Corps Total Force System (MCTFS). SLR courses of fire that are the unit's responsibility are contained in paragraph 15 of this Enclosure.

b. Range Responsibility. SLR Program training at the range includes a mix of lecture, simulation, and dry and live fire exercises. This includes lesson plan SLR.16 in support of Phase I Preparatory Training; lesson plans SLR.17 and SLR.18 in support of Phase II KD Firing; and lesson plan SLR.31 in support of Phase III Field Firing. The SLR Program courses of fire at the rifle range are contained in paragraph 15 of this enclosure. Training at the range culminates in live fire evaluation of the following ITS:

(1) Phase I

PVTX.11.4 Zero the M16A2 service rifle

(2) Phase II

PVTX.11.5 Engage stationary targets with the M16A2 service rifle

(3) Phase III

PVTX.11.6 Engage targets of limited exposure (time) with the M16A2 service rifle

PVTX.11.8 Engage targets with the M16A2 service rifle while wearing the field protective mask

ENCLOSURE (1)

PVTX.11.9 Engage multiple targets with the M16A2 service rifle

PVTX.11.10 Engage moving targets with the M16A2 service rifle

d. Training Schedule for SLR Program Training and Evaluation
on the Rifle Range

(1) Day 1. Marines report to the range with written confirmation from their units that each Marine has completed Preparatory Training, passed the Weapons Handling Test, and a Limited Technical Inspection (LTI) was conducted on each of their weapons. The range may periodically conduct weapons handling tests to ensure shooters have received required unit level training. All Marines train on Day 1; there is no evaluation.

(2) Day 2. Marines have an option of being evaluated on ITS PVTX.11.5 or receiving training and coaching. Marines who wish to be evaluated must declare prior to firing. These Marines are grouped and physically separated on the firing line from those Marines who do not declare. For Marines electing to be evaluated, coaching is not allowed. Verifiers will be in the pits and new target faces will be on those targets. Every Marine who elects to be evaluated on Training Day 2 and qualifies Expert, Sharpshooter, or Marksman is released until Training Day 5 for Field Firing. Marines who elected to be evaluated and did not qualify return on Training Day 3. Scores for all Marines who elected to be evaluated are recorded.

(3) Day 3. Marines who elected to be evaluated and did not qualify on Day 2 must receive training and coaching. Marines who did not elect to be evaluated on Day 2 have an option of being evaluated on ITS PVTX.11.5 or receiving training and coaching. Marines who wish to be evaluated must declare prior to firing. These Marines are grouped and physically separated on the firing line from those Marines who do not declare, as in Day 2. For Marines electing to be evaluated, coaching is not allowed and there are verifiers in the pits and new target faces on these targets.

ENCLOSURE (1)

3 MAY 2000

Every Marine who elects to be evaluated on Training Day 3 and qualifies Expert, Sharpshooter, or Marksman is released until Training Day 5 for Field Firing. Marines who elected to be evaluated and did not qualify return on Training Day 4. Scores for all Marines who elected to be evaluated are recorded.

(4) Day 4. Remaining Marines are evaluated on ITS PVTX.11.5. Coaching is not allowed and there are verifiers in the pits and new target faces on every target. Scores for all Marines are recorded. Marines who elected to be evaluated and fired Unqualified on Day 2 or Day 3 and qualified on Day 4 will receive the minimum passing score. If time or other circumstances permit, the range may re-fire Marines who fail to qualify one additional time across the course on Day 4. Marines who fail to fire a qualifying score are sent back to their units without firing Phase III Field Firing. Refire attempts (i.e., returning to the range on another detail) are determined by the Marine's Commanding Officer (see paragraph 4 of this enclosure).

(5) Day 5. All Marines are evaluated on ITS PVTX.11.4, PVTX.11.6, PVTX.11.8, PVTX.11.9, and PVTX.11.10. Coaching is not allowed and there are verifiers in the pits and new target faces on every target. Scorecards are kept and scores are reported in MCTFS (see paragraph 5 of this enclosure). In addition, scores received for ITS PVTX.11.5 are reported in MCTFS.

e. Training Schedule for SLR Program Training and Evaluation for the SMCR

(1) Marines report to the range with written confirmation from their units that each Marine has completed Preparatory Training, passed the Weapons Handling Test, and a LTI was conducted on each of their weapons. The range may periodically conduct weapons handling tests to ensure shooters have received required unit level training. All corresponding Phase I and Phase II SLR lesson plans must be taught prior to coming to the range.

(2) Marines fire the same course of fire on Day 1 as described in paragraph 1.d. (1) of this enclosure.

(3) Following this practice evolution, all Marines fire ITS PVTX.11.5 for record. Coaching is not allowed. Verifiers will be in the pits and new target faces will be on each target. Scores for all Marines are recorded. For Marines who fail to qualify, the

ENCLOSURE (1)

3 MAY 2000

range may re-fire them one additional time across the course if time permits. Marines who fail to fire a qualifying score are sent back to their units. Re-fire attempts (i.e., returning to the range on another detail) are determined by the Marine's Commanding Officer (see paragraph 4, of this enclosure).

(4) Following requalification, Marines fire ITS PVTX.11.4. Coaching is not allowed and there are verifiers in the pits and new target faces on every target. Results are recorded for all Marines. Scores for ITS PVTX.11.4 and PVTX.11.5 are reported.

(5) Off-year. Marines are required to fire ITS PVTX.11.4 to reconfirm their Battlesight Zero (BZO). Each Marine will fire ITS PVTX.11.6, PVTX.11.8, PVTX.11.9, and PVTX.11.10. Marines will fire ITS PVTX.11.7 and PVTX.11.11 on the off-year if equipment and facilities allow. Coaching is not allowed and there are verifiers in the pits and new target faces on every target. Scorecards are kept and scores are reported in MCTFS (see paragraph 5 of this enclosure). All corresponding SLR lesson plans must be taught prior to coming to the range.

f. Required Equipment for SLR Program

- (1) Standard M16A2 service rifle without M203
- (2) Standard issue web sling
- (3) Cartridge belt
- (4) Magazines and magazine pouches
- (5) Hearing protection
- (6) Data book
- (7) Field protective mask for Phase III firing (T/E issue)
- (8) Suspenders or load bearing vest
- (9) Flak jacket and helmet for Phase III firing (T/E issue)
- (10) Cold or foul-weather gear authorized

ENCLOSURE (1)

3 MAY 2000

2. Exemption to Annual Training. Per the commander's discretion, any Marine exempt per this Order is encouraged, and should be afforded the opportunity, as available, to complete the annual marksmanship training. The following exemptions apply:

- a. Marines assigned to units with no rifles on their T/E.
- b. Marines awarded the Distinguished Marksman Badge.
- c. Active duty Marines who have fired Expert on the KD Course two consecutive years will be exempt the following year.
- d. Majors or above.
- e. Officers with 13 years of active service or more.
- f. Enlisted Marines holding the grade of Gunnery Sergeant or higher. However, Gunnery Sergeants who are assigned the rifle as their T/O weapon are required to requalify annually.

3. Waivers

a. Waivers from the requirements of this Order may be solicited only for short-term situations that temporarily prevent a unit from complying with the requirement to provide adequate training. The intent is for units to request a waiver when it is determined that time or the lack of sufficient resources will prevent the accomplishment of the required marksmanship training for either an individual or the unit.

b. The authority to waive training will rest with Commanders, Marine Forces Pacific (COMMARFORPAC), and Marine Force Reserves (COMMARFORRES).

4. Requalification Attempts (SLR Only)

a. If a Marine fails to achieve a qualifying score on the KD Course of Fire during the range detail's firing week, they will be provided remediation by the unit and permitted to return to the range for additional attempt(s) to requalify. Additional attempts on subsequent range details will be determined by the unit commander.

b. If a Marine passes on an additional attempt, they will receive the minimum passing score.

ENCLOSURE (1)

c. A Marine who qualifies may not come back to the range to requalify during that same fiscal year.

5. Regualification Reporting Requirements

a. Marines who complete the scheduled requalification firing will have the date, type of course (ELR or SLR), score, and classification attained recorded; and if a Sergeant or above, have the appropriate requalification code reported. In addition, scores received on ITS PVTX.11.6 - PVTX.11.11 must be reported and entered into MCTFS.

(1) Classification Scores - Regualification (SLR KD Course of Fire)

<u>Expert</u>	<u>Sharpshooter</u>	<u>Marksman</u>
40	35	25

(2) Passing (Mastery) - Phase I Preparatory Training (SLR Program)

ITS PVTX.11.3 - 7 MOA group (live fire)
ITS PVTX.11.4 - 7 MOA group in the center of the target

(3) Passing Scores - Phase III Field Firing (SLR Program)

<u>ITS</u>	<u>Exercise</u>	<u>% of hits</u>	<u># of hits</u>
PVTX.11.6	Limited Exercise	50%	(8 out of 16 rounds)
PVTX.11.7	Low Light/Darkness	50%	(15 out of 30 rounds)
PVTX.11.8	Field Protective Mask	50%	(8 out of 16 rounds)
PVTX.11.9	Multiple Targets	50%	(12 out of 24 rounds)
PVTX.11.10	Moving Targets	50%	(8 out of 16 rounds)
PVTX.11.11	Unknown Distance	50%	(6 out of 16 rounds)

b. Commanders will ensure the deserving Marines who fail to achieve a qualifying score on the KD Course of Fire during the firing week are given the opportunity for remedial qualification/requalification attempts. The failed attempt at requalification will be reported. If successful in a remedial attempt, the minimum qualifying score will be reported. If the

ENCLOSURE (1)

3 MAY 2000

Marine is a Sergeant or above, and after the remedial requalification attempt, the Marine is still unqualified, report that unqualification during the fitness reporting period in which it occurred.

6. Range Personnel Requirements

a. Range Officer. Range officers are responsible for supervising the conduct of training and enforcing range safety regulations. The range officer is ultimately responsible for the conduct of all activities on the range. Range officers are Warrant Officers with the primary military occupational specialty (MOS) 9925. If a range officer is not available, qualified SNCOs can serve as RSOs. In lieu of a range officer, the RSO enforces range safety regulations and is responsible for the safety of all personnel on the range.

b. Line SNCO. The line SNCO must have the secondary MOS 8531. The line SNCO is responsible for conducting and supervising training and evaluation on the range in accordance with this Order. The line SNCO cannot act as RSO while performing the duties of the line SNCO.

c. Block NCO. The block NCO must have the secondary MOS 8531. The block NCO supervises all aspects of training within their block, enforces range and safety regulations, and authorizes alibis as required. During training, there should be a minimum of one block NCO per 10 targets. During evaluation, there should be a minimum of one block NCO per 5 targets.

d. Range Coach. Range coaches are responsible for training Marines on the range. Range coaches must hold the secondary MOS 8530 or 8531. The range coach ensures Marines assigned to their targets apply proper techniques of fire and use proper weapons handling procedures. During training, one coach should be assigned for every two targets, not to exceed four targets per coach. During evaluation, coaching is prohibited (see paragraph 8.c. of this enclosure).

e. Tower NCO. The tower NCO gives all line commands during training and evaluation firing. The tower NCO must hold the secondary MOS of 8531.

ENCLOSURE (1)

3 MAY 2000

7. Instructor Requirements

a. Sustainment Level Training

(1) Only qualified marksmanship instructors supplied by the range or by the unit will conduct marksmanship training.

(2) Marksmanship instructors must have successfully completed the Range Coach Course or the Range Officer Course.

(3) Because some SMCR units may not have access to a range coach to conduct marksmanship training, they can request assistance via their chain of command from COMMARFORRES (G-3T) to obtain a Range Coach Mobile Training Team.

b. Regulations Concerning Coaching. Coaching during all rifle evaluation firing is prohibited, including prior to firing and between stages of fire. This includes any verbal or physical assistance that may aid the shooters performance. Shooters firing for record must be separated from shooters who are not being evaluated and are receiving coaching. During evaluation firing, coaches and range personnel serve as safety supervisors and enforce range regulations. Range personnel and coaches will remain on or behind the ready line while personnel are firing for evaluation, except when intervening to prevent an unsafe condition.

8. Scoring Procedures. All scoring will be automated.

9. Alibis

a. If the shooter experiences a stoppage or failure to fire, the shooter is responsible for performing remedial action to get the weapon back into action. Remedial action procedures are contained in TM 05538C.10/1A Operators Manual with Component List for the M16A2.

(1) An alibi will be awarded if any condition caused by the weapon (mechanical malfunction), ammunition, or range (line or pit) operation causes the shooter to not have an equal opportunity to complete a string of fire.

(2) An alibi will not be awarded for any condition caused by the shooter.

ENCLOSURE (1)

3 MAY 2000

b. Circumstances Which Do Not Constitute an Alibi. The following are events, conditions, and failures to fire which do not constitute an alibi.

(1) General

(a) The weapon has not been properly maintained, cleaned, or lubricated.

(b) The rifle or magazine is improperly assembled.

(c) Failure to properly seat the magazine.

(d) Failure to chamber the first round of each magazine.

(e) Failure to ensure the bolt is fully forward and locked.

(f) Failure to replace magazines that were determined to be defective during practice.

(g) Failure to shoot the prescribed number of shots for each stage of fire.

(h) Use of unauthorized ammunition.

(i) Lost ammunition.

(j) Insufficient or excessive hits.

(2) Prior to Firing

(a) The shooter fills his magazines improperly or fills magazines with the incorrect number of rounds.

(b) The shooter fails to adjust the sights properly for a string of fire.

(c) The shooter fails to take the weapon off safe prior to firing.

ENCLOSURE (1)

3 MAY 2000

(3) During Firing

- (a) The shooter engages the safety while firing.
- (b) The shooter engages the magazine release button while firing.
- (c) The shooter fails to reload the weapon properly or reloads with the wrong magazine.
- (d) The shooter fails to perform remedial action properly when a stoppage occurs.

c. Circumstances Which Constitute an Alibi

- (1) General. The following are examples of events and conditions that constitute an alibi.
 - (a) Faulty ammunition.
 - (b) A malfunction occurs with the rifle, which causes a stoppage.

(2) Range Alibis. A range alibi will be awarded in any instance when range operations do not allow the shooter the same opportunity to complete a string of fire.

10. Firing Position Requirements for ITS PVTX.11.5, KD Firing. The Marine must be able to assume all four basic firing positions in the prescribed stages of fire during SLR training and evaluation.

a. Prone

- (1) The body will be extended on the ground with the head toward the target.
- (2) The rifle will be supported by both hands, the sling, and one shoulder.
- (3) No portion of the arms below the elbow will rest on the ground or against any artificial support.
- (4) No portion of the rifle or body will rest against any artificial support.

ENCLOSURE (1)

3 MAY 2000

(5) The magazine will be allowed to touch the clothing or the arm supporting the rifle, but may not rest on the arm.

(6) The magazine will not touch the ground.

b. Sitting

(1) The buttocks, feet or ankles will support the body's weight. No other portion of the body will touch the ground.

(2) The rifle will be supported by both hands, the sling, and one shoulder.

(3) The arms may rest on the legs at any point above the ankles.

c. Kneeling

(1) The left foot, right knee and right foot will support the body's weight.

(2) The buttocks will be clear of the ground but may rest on one foot.

(3) The rifle will be supported by both hands, the sling, and one shoulder.

(4) The arm supporting the rifle will rest on the knee or just inside the knee.

(5) The rear elbow will be unsupported.

d. Standing

(1) Standing erect on two feet.

(2) No other portion of the body will touch the ground.

(3) The rifle will be supported by both hands, the sling, and one shoulder.

(4) The forward hand will grasp the hand guard and the forward arm will not rest against the body or on the cartridge belt or attached equipment for additional support.

ENCLOSURE (1)

3 MAY 2000

11. Awards

a. Rifle Regualification Badge. The Rifle Regualification Badge is awarded based on the score achieved on the KD Course. Total points determine the classification of the badge (Expert, Sharpshooter, Marksman).

(1) Commanding Officers will issue the appropriate regualification badge to Marines qualifying in their initial record attempt.

(2) Marines who fail to qualify in their initial record attempt and qualify in a subsequent attempt will be classified as Marksman and issued the Marksman badge regardless of score attained.

(3) The wearing of the appropriate regualification badge is authorized until the individual fails to regualify or regualifies in another classification.

b. Regualification Bars

(1) Upon qualifying as Expert with the service rifle on a regualification attempt, an individual earns a regualification bar to be attached to the rifle Expert badge.

(2) The first regualification bar earned is the second award since the Expert badge is the first. Subsequent Expert regualification bars will be issued to the Marine by the Commanding Officer.

(3) Only the last regualification bar earned by the individual will be worn.

12. Records Disposition. Records and reports relating to marksmanship training and readiness with individual small arms will be retained for two years by organizations conducting training. Marksmanship qualification records (rifle scorecards) will be retained for a minimum of one year at the MCAS Miramar Marksmanship Range Office.

REGULATIONS GOVERNING THE TRAINING AND EVALUATION WITH THE M9
SERVICE PISTOL1. Annual Training and Evaluation Requirements

a. General. Prior to being armed all Marines who are required by T/O or duty assignment to use the M9 service pistol must complete qualification training and firing, Entry Level Pistol (ELP) lessons 1 through 11. Selected Marine Corps Reserve (SMCR) must complete the ELP Program every other year. Exemptions are outlined in paragraph 2 of this enclosure.

b. Entry Level. All newly promoted Staff Sergeants must complete the ELP Program, lessons ELP.1 - ELP.19A.

c. Sustainment Level. Marines required to annually fire the service pistol must complete the following ELP Program.

(1) Unit commanders are responsible for preparing their Marines for annual sustainment training. The training of knowledge-based lecture materials and practical applications in support of the ELP Program is a unit responsibility. The unit must train Marines going to the range for live fire sustainment training and evaluation in lesson plans ELP.1 - ELP.9 in support of Phase I Preparatory Training; and lesson plans ELP.12 - ELP.19 in support of Phase III Field Firing. In addition to knowledge-based lectures, this training should include a mix of dry fire and simulation training.

(2) ELP Program training at the range includes a mix of lecture, dry fire, simulation, and live fire. This includes lesson plans ELP.10 and ELP.11 in support of Phase I Preparatory Training and Phase II KD Firing; and lesson plans ELP.15A, ELP.17A, ELP.18A, and ELP.19A in support of Phase III Field Firing. Training at the range culminates in dry and live fire evaluation of Individual Training Standards (ITS) SSGT.11.1 through SSGT.11.3.

d. The following ITS are trained and evaluated in the ELP Program.

(1) Phase I

SSGT.11.1 Perform weapons handling procedures with the M9 service pistol (dry fire)

ENCLOSURE (2)

StaO 3574.1
3 MAY 2000

SSGT.11.2 Perform preventive maintenance on the M9 service pistol

(2) Phase II

SSGT.11.3 Engage stationary targets with the M9 service pistol (live fire)

(3) Phase III

SSGT.11.4 Engage targets of limited exposure (time) with the M9 service pistol (live fire)

SSGT.11.5 Engage targets during low light and darkness with the M9 service pistol (live fire)

SSGT.11.6 Engage multiple targets with the M9 service pistol (live fire)

SSGT.11.7 Engage moving targets with the M9 service pistol (live fire)

e. Required Equipment for ELP

- (1) M9 service pistol
- (2) Cartridge belt
- (3) Holster
- (4) Magazines
- (5) Magazine pouch
- (6) Hearing protection

2. Exemptions to Annual Training. Per the commander's discretion, any Marine exempt per this Order is encouraged, and should be afforded the opportunity, as available, to complete the annual marksmanship training. The following exemptions apply:

- a. Marines assigned to units with no pistols on their T/E.
- b. Marines awarded the Distinguished Pistol Shot Badge.

ENCLOSURE (2)

3 MAY 2000

c. Active duty Marines who have fired Expert for two consecutive years will be exempt the following year only.

d. Colonel's or above.

e. Marines with 20 years of service or more.

f. Sergeant Major or Master Gunnery Sergeant.

g. Chief Warrant Officers 4 and higher.

3. Waivers

a. Waivers from the requirements of this Order may be solicited only for short-term situations that temporarily prevent a unit from complying with the requirement to provide adequate training. The intent is for units to request a waiver when it is determined that time or the lack of sufficient resources will prevent the accomplishment of the required marksmanship training for either an individual or the unit.

b. The authority to waive training rests with Commanders, Marine Forces Pacific (COMMARFORPAC), and Marine Force Reserves (COMMARFORRES).

4. Requalification Attempts

a. If a Marine fails to achieve a qualifying score on the M9 Pistol Qualification Course of Fire during the range detail's firing week, they will be provided remediation by the unit and permitted to return to the range for additional attempt(s) to requalify. Additional attempts on subsequent range details will be determined by the unit commander. For Marines who fail to qualify, the range may refire them one additional time across the course on qualification day, if time permits.

b. If a Marine passes on an additional attempt, they will receive the minimum passing score.

c. A Marine who qualifies may not come back to the range to requalify during the same fiscal year.

ENCLOSURE (2)

StaO 3574.1
3 MAY 2000

5. Qualification/Requalification Reporting Requirements

a. Marines who complete the scheduled qualification/requalification firing will have the date, name of course, score, and classification attained recorded; and if a Sergeant or above, have the appropriate qualification code, or unqualification code if applicable, entered into their Fitness Report. In addition, scores received on ITSs SSGT.11.4 - SSGT.11.7 must be reported and entered into Marine Corps Total Force System (MCTFS).

(1) Classification Scores - ITS SSGT.11.3 Initial Qualification/Sustainment (M9 Service Pistol Qualification Course of Fire)

<u>Expert</u>	<u>Sharpshooter</u>	<u>Marksman</u>
345	305	245

(2) Passing Scores for Phase III Field Firing

ITS	Exercise	% of Hits	# of Hits
SSGT.11.4	Limited Exposure	60%	(20 out of 32)
SSGT.11.5	Low Light/Darkness	60%	(20 out of 32)
SSGT.11.6	Multiple Targets	60%	(22 out of 36)
SSGT.11.7	Moving Targets	60%	(20 out of 32)

b. Commanders will ensure that deserving Marines who fail to achieve a qualifying score on the M9 Course of Fire during the firing week are given the opportunity for remedial qualification/requalification attempts. The failed attempt at requalification will be reported into MCTFS. If successful in a remedial attempt, the minimum qualifying score will be entered into MCTFS and on the Fitness Report.

6. Ammunition Requirements. Authorized ammunition allocations for training are contained in the ELPs, and MCBul 8011.

7. Range Personnel Requirements. The following personnel requirements apply to all pistol live fire training:

a. Range Officer. Range Officers are responsible for supervising the conduct of training and enforcing range safety regulations. The Range Officer is ultimately responsible for the conduct of all activities on the range. Range Officers are Warrant Officers with the primary Military Occupational Specialty (MOS) 9925. If a Range Officer is not available, a qualified SNCO can

ENCLOSURE (2)

3 MAY 2000

serve as Range Safety Officer (RSO). In lieu of a Range Officer, the RSO enforces range safety regulations and is responsible for the safety of all personnel on the range.

b. Line SNCO. The Line SNCO must have the secondary MOS 8531. The line SNCO is responsible for conducting and supervising training and evaluation on the range in accordance with this order. The line SNCO cannot act as RSO while performing the duties of the line SNCO.

c. Block NCO. The Block NCO must have the secondary MOS 8531. The Block NCO supervises all aspects of training within the block, enforces range and safety regulations, and authorizes alibis as required. During training, there should be a minimum of one Block NCO per 10 targets. During evaluation, there should be a minimum of one Block NCO per 5 targets.

d. Range Coach. Range coaches are responsible for training Marines on the range. Range coaches must hold the secondary MOS 8530 or 8531. The Range Coach ensures Marines assigned to his targets apply proper techniques of fire and use proper weapons handling procedures. During training, one coach should be assigned per every 2 targets, not to exceed 4 targets per coach. During evaluation, coaching is prohibited (see paragraph 8.c below).

e. Tower NCO. The Tower NCO gives all line commands during training and evaluation firing. The Tower NCO must hold the secondary MOS 8531.

f. Verifiers. Range personnel serve as verifiers to make decisions on questionable shot values or incidents that could affect qualification scores. At a minimum, there will be one verifier per 10 targets during evaluation firing.

8. Instructor Requirements

a. Entry Level Training. G-3 Training (Ranges) will maintain a staff of qualified Marksmanship Instructors to conduct Preparatory Training prior to live fire training exercises.

b. Sustainment Training

(1) Only qualified marksmanship instructors supplied by the range or by the unit will conduct sustainment marksmanship training.

ENCLOSURE (2)

3 MAY 2000

(2) Marksmanship instructors must have successfully completed the Range Coach Course or the Range Officer Course.

(3) Because some SMCR units may not have access to a Range Coach to conduct marksmanship training, they can request assistance via their chain of command from COMMARFORRES (G-3T) to obtain a Range Coach Mobile Training Team.

c. Regulations Concerning Coaching. Coaching during all pistol evaluation firing is prohibited, including prior to firing and between stages of fire. This includes any verbal or physical assistance that may aid the shooters' performance. During evaluation firing, coaches and range personnel serve as safety supervisors and enforce range regulations. Range personnel and coaches will remain on or behind the ready line while personnel are firing for evaluation, except when intervening to prevent an unsafe condition.

9. Scoring Procedures. Detailed scoring procedures are contained in FMFM 0-8 Basic Marksmanship.

a. Excessive Hits During a String of Fire. If there are more hits than the prescribed number for the stage of fire, the shooter will receive the highest value of the number of shots fired up to the prescribed number of hits for that stage.

b. Insufficient Hits During a String of Fire

(1) If there are insufficient hits and three or more shot holes are touching, and there are no excessive hits on the two targets to the left and right, the shooter is given the value of the three touching shot holes for the missing shot(s).

(2) If there are insufficient hits and there are not three or more shot holes touching, the shooter must accept the score for the number of rounds impacting the target.

10. Alibis. An alibi will be awarded if any condition caused by the weapon (mechanical malfunction), ammunition, or range (line or pit) operation causes the shooter to not have an equal opportunity to complete a string of fire. An alibi will not be awarded for any condition caused by the shooter. If the shooter experiences a stoppage or failure to fire, the shooter is responsible for

ENCLOSURE (2)

3 MAY 2000

performing immediate action to get the weapon back into action. Immediate action procedures are contained in chapter 10 of FMFM 0-8 Basic Marksmanship.

a. Circumstances which do not constitute an alibi. The following are events, conditions, and failures to fire which do not constitute an alibi:

(1) General

(a) The weapon has not been maintained, cleaned, or lubricated in accordance with FMFM 0-8 Basic Marksmanship.

(b) The pistol or magazine is improperly assembled.

(c) Failure to properly seat the magazine.

(d) Failure to chamber the first round of each magazine.

(e) Failure to ensure the slide is fully forward and seated.

(f) Failure to replace magazines that were determined to be defective during practice.

(g) Failure to shoot the prescribed number of shots for each stage of fire.

(h) Use of unauthorized ammunition.

(i) Lost ammunition.

(2) Prior to Firing

(a) The shooter fills his magazines improperly or fills magazines with the incorrect number of rounds.

(b) The shooter fails to take the weapon off safe prior to firing.

(3) During Firing

(a) The shooter engages the safety while firing.

ENCLOSURE (2)

3 MAY 2000

(b) The shooter engages the magazine release button while firing.

(c) The shooter fails to allow the trigger to reset.

(d) The shooter fails to reload the weapon properly.

(e) The shooter fails to perform immediate action properly when a stoppage occurs.

b. Circumstances Which Constitute an Alibi

(1) General. The following are examples of events and conditions that constitute an alibi.

(a) Faulty ammunition.

(b) A malfunction occurs with the pistol, which causes a stoppage.

(2) Range Alibis. A range alibi will be awarded in any instance when range operations do not allow the shooter the same opportunity to complete a string of fire.

11. Awards

a. Pistol Qualification Badge. The Pistol Qualification and Requalification Badge is awarded based on the score achieved on the M9 Pistol Qualification Course. Total points determine the classification of the badge (Expert, Sharpshooter, and Marksman).

(1) Commanding Officers will issue the appropriate qualification badge to Marines qualifying in their initial record attempt.

(2) Marines who fail to qualify in their initial record attempt and qualify in a subsequent attempt will be classified as Marksman and issued the appropriate badge regardless of score attained.

(3) The wearing of the appropriate qualification badge is authorized until the individual fails to requalify or requalifies in another classification.

ENCLOSURE (2)

b. Requalification Bars

(1) Upon qualifying as Expert with the service pistol on a requalification attempt, an individual earns a requalification bar to be attached to the pistol Expert badge.

(2) The first requalification bar earned is the second award since the Expert badge is the first. Subsequent Expert requalification bars will be issued to the Marine by the Commanding Officer.

(3) Only the last requalification bar earned by the individual will be worn.

12. Records Disposition. Records and reports relating to marksmanship training and readiness with individual small arms will be retained for two years by organizations conducting training. Marksmanship qualification records (pistol line scorecards) will be retained for a minimum of one year at MCAS Miramar Marksmanship Range Office.

RIFLE SECURITY DETAIL GUIDANCE AND PROCEDURES

1. General. Due to the potential threat of weapons theft, security measures must be taken to protect government property and personnel. Of primary concern in this instance is the transporting of weapons between MCAS Miramar and MCB Camp Pendleton by surface transportation. All necessary precautions will be taken to ensure that weapons and personnel are provided adequate protection. These precautions include:

- a. Assignment of responsibility for security.
- b. Training of security personnel to include specific instruction for use of "Deadly Force" as described in MCO 5500.6F, Arming of Security and Law Enforcement Personnel and the Use of Force.
- c. Arming of security personnel as described in MCO 5500.6F.
- d. Equipping the range buses with radios on the California Highway Patrol frequency for use in emergency situations.

2. Training of Security Personnel. All personnel assigned to the security detail shall be trained as per MCO 5500.6F. The MCAS Miramar Provost Marshal will supervise the training of security personnel for the firing detail and will ensure that such training remains current. This training will include, but is not limited to, specific instruction regarding the use of "Deadly Force."

3. Special Orders. In the event that an attempt is made to stop the vehicle or an unidentified person or persons attempt to board an already halted vehicle, the following special orders apply:

a. General. The Staff Non-Commissioned Officer in Charge (SNCOIC) of the security detail in charge of that vehicle will immediately issue the filled magazines to the security detail, who will load their weapons. The SNCOIC will instruct all passengers to remain seated but alert to the situation. If disembarking from the vehicle becomes necessary, the SNCOIC will instruct the security detail to provide cover and have the driver secure the vehicle. Weapons will only be fired when directed by the SNCOIC.

b. Vehicle Breakdown. In the event of a mechanical breakdown, the entire convoy will halt together. The SNCOIC of that vehicle will disembark and inform the SNCOIC of the convoy of the details
